

A Note from Dr. Miller

I had the greatest parents!!!

They loved me unconditionally.

They gifted me with their love, faith, and a wonderful education.

I'm the proud product of a Catholic School Education. I've always attributed my success to the education and values I acquired at my grammar school, Our Lady of Mercy Academy in Park Ridge, NJ.

Wanting to honor the memory of my Mom & Dad, I couldn't think of any better way than to create a Catholic School Education Foundation. As a physician, I'm methodical & analytical so I volunteered at school first to see if this was a wise investment. The curriculum, values, and sense of community bestowed on today's students is nothing short of phenomenal.

A wise investment, for today, and for our future!

Marilyn A. Miller, MD
